PROFESSIONAL EXPERIENCE

UN Volunteer (National, Associate) — BMA Enumerator
Sep 2026 – Present

International Organization for Migration (IOM) Kazakhstan, through United Nations Volunteers (UNV) · Kokshetau, Kazakhstan · Full-time

- Conduct village-level Baseline Mobility Assessments (BMA) through structured interviews with key informants - community leaders and local authorities - and individual surveys with international migrant workers in the region.
- Plan daily schedules and target areas with field supervisors and team leaders; prepare equipment and materials ahead of each field visit.
- Submit completed assessment forms through KoBo Toolbox, ensuring data is correctly uploaded and delivered to the data management team.
- Validate information by cross-checking multiple sources; keep detailed records of daily activities and completed interviews; document challenges encountered.
- Maintain confidentiality, informed consent, and ethical standards throughout data collection.

Logistics Manager & Data Analyst
Feb 2026 – Sep 2026

CT AGRO GmbH – Kokshetau, Kazakhstan · Full-time

- Managed end-to-end supply chain operations including procurement planning, supplier coordination, and import documentation under Incoterms (EXW, FCA, DAP); coordinated workflows across sales, finance, and operations teams.
- Conducted inventory data analysis for spare parts and agricultural machinery, identifying shortages, excess stock, and obsolete items; built self-updating Excel dashboards with INDEX/MATCH, IFERROR, and dynamic dropdowns.
- Developed a supplier comparison model for Total vs. Shell lubricants with automatic EUR→KZT conversion, enabling data-driven procurement decisions; reduced analysis preparation from several hours to 10 minutes.
- Independently coded 127+ spare parts items under OKTRU classifier using fuzzy matching logic, accelerating tender preparation and reporting.
- Built an automated payment distribution system in Excel prioritizing supplier payments based on status, excess, and remaining balances; eliminated manual processing.
- Developed Python scripts to automate translation and processing of invoices, receiving reports, and logistics documents – reducing manual processing time and improving documentation accuracy.

Assistant Director of Logistics
Jul 2025 – Sep 2025

Azurite Logistics – Almaty, Kazakhstan · Contract (internship)

- Led 1C ERP data entry, document processing, and transaction tracking; delivered structured datasets for internal reporting and logistics control ahead of schedule.
- Ensured accuracy and consistency of operational records; streamlined document-management workflows and improved audit readiness.

Logistics Assistant
Jun 2021 – Jul 2021

Dimex Logistics – Almaty, Kazakhstan · Contract (internship)

- Managed parcel intake, system registration, and warehouse allocation for 500+ daily shipments, maintaining 99%+ tracking accuracy and efficient distribution.

VOLUNTEER EXPERIENCE

United Nations Volunteers (UNV) – Online Volunteering
Remote

Text Analysis & Knowledge Structuring – UNDP Istanbul Regional Hub (Türkiye) · 8 weeks

- Analyze climate and disaster resilience data for UNDP's regional Risk Index (18 countries, Europe & Central Asia); built a Python checker that flagged 16 data issues.
- Design a traceable finance checklist for resilience indicators, test World Bank API automation, and map indicators to an AI taxonomy for NDC/NAP analysis.

Content Creator & Graphic Design – VIO Society (Kenya) · 12 weeks

- Created multimedia content for the IBM SkillsBuild Reskilling Revolution Africa project targeting 35,000 learners across Kenya, Ethiopia, and South Africa.
- Designed motivational messages, infographics, banners, and educational graphics using Canva to boost course completion rates.

Data Researcher – UN Women (Central Asia) · 2 weeks

- Updated the database of Civil Society Organizations (CSOs) and gender experts across Central Asia.
- Conducted data collection and verification; standardized entries by formatting, terminology, and country classification.

UNICEF Kazakhstan – Community Initiatives
Feb 2026 – Present

Kokshetau, Kazakhstan · Part-time

- Implement community-based initiatives aligned with UNICEF's mission and the UN agenda, including environmental campaigns and child rights projects.
- Organize public events and awareness campaigns; engage local communities in sustainable development programs.
- Collaborate in volunteer-driven initiatives supporting children and vulnerable groups, applying evidence-based decision-making and child safeguarding standards.

EDUCATION

Master of Science in Logistics
Jan 2024 – Jan 2026

Satbayev University – Almaty, Kazakhstan · GPA 3.45 / 4.0

- Thesis: Optimization of International Uranium Supply Routes (Kazakhstan – France) using AnyLogic simulation.
- Coursework: Supply Chain Modeling, Multimodal Transport Systems, Global Trade Logistics.

Bachelor of Transport Engineering
Sep 2019 – May 2023

Satbayev University – Almaty, Kazakhstan · GPA 3.50 / 4.0

- Coursework: Improving the Operational Capabilities of the Excavator Working Equipment.
